

# Appointment Book Pro

Advanced scheduling features to handle the demands of your busy practice

- Ability to template/block/color code your schedule for one time or recurring events and appointment types
- Ability to schedule according to color blocking templates
- Semi-automated email appointment reminders & email recall due reminders
- Block off holidays or full days closed in the office
- View the schedule on a day/week/month at a glance
- Create custom views of the schedule (provider view/resource view/single column view, etc.)
- Time height and time interval customization on the schedule
- Ability to block future scheduling more than "X" number of days in advance
- Access to the Scheduled Revenue Screen so you can see how much is scheduled by provider for production and collection
- Ability to customize the schedule column names

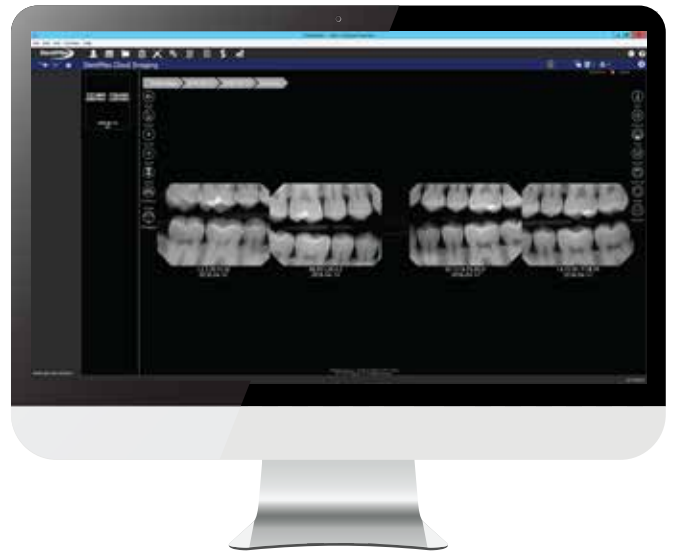

- Ability to create an alternate schedule for a time frame (if you have reduced or expanded hours for the summer, or during a holiday season)
- Ability to enable security control for who can access various schedule views by user
- Ability to create a separate schedule for multiple facilities

# Cloud Imaging

With DentiMax Cloud Imaging, you can access all your digital X-rays and extra-oral images from any web-enabled device

Whether you're in or outside the office, once captured, DentiMax Cloud Imaging allows you to view, diagnose, and enhance images from any device with a web browser. With DentiMax Cloud Imaging, you'll have access to your own secure website where you can log in and view your X-rays from wherever you have an internet connection.

Access your patient's X-rays through DentiMax Cloud Imaging anywhere you have a secure internet connection, on any device!

Capture X-rays with or without the internet & images sync to the cloud viewer when internet is available

Integrates with DentiMax Practice Management to show you the X-ray thumbnails in the patient chart screen

Works with virtually any sensors, I/O cameras, carries detection devices, and more

Graduated pricing to fit your practice needs, price per location

# Document Center

Digitize and eliminate your paperwork with document management software

The DentiMax Document Center is easy-to-use software that allows your office to organize, capture and store:

- Patient insurance cards, driver's licenses, ID cards
- Patient signatures on your own financial, privacy and patient release forms
- Insurance EOBs
- Image files and emailed items
- Treatment plans and treatment consent forms

- Readable/printable copy of the patient's electronic registration\*
- All printed documents

Use a touch screen or signature pad to capture electronic signatures, and scanners to convert paper forms and documents into electronic files!

\*Requires the In-office or Web-Kiosk to perform electronic registration

## Why dental offices are choosing the DentiMax Document Center

### Seamless integration to DentiMax and other systems

Simply click on the Document Center icon from DentiMax for instant access to all of your patients' previously captured ID cards and signed documents. Finding and retrieving patient documents is so easy, you'll never misplace a patient form again.

### Customize form letters

Easily create your own unique financial forms and other forms which can be setup to capture your patients' signatures.

### Easy to use and navigate

Use your mouse to click on easy-to-view folders and links to reprint previously captured documents, sign new documents and/or to display documents.

### A flexible solution

Priced at a fraction of competitors' products, the Document Center is packed full of easy-to-use, time-saving features, providing unparalleled value. Easily modify live documents and create your own document folders and categories. This is a must-buy system for those wishing to simplify, streamline and even eliminate their paperwork.

# In-Office & Web Kiosk

Transform your office by eliminating paperwork with the In-Office or the Web Kiosk

## A paperless solution that will save you time and money

The In-Office and the Web Kiosk are easy-to-use tools that will make you, your staff and your patients' lives easier:

- Complete intake of patient demographic information, including patient data, the responsible party, and the insurance subscriber information.
- Allows your patient to select any medical alerts/warnings (the list populates from your DentiMax software system)
- Allows your patient to enter complete medical and dental history on a customizable form.
- Attach general consent forms such as HIPAA, financial consents and office policy forms from your Document Center for a digital patient signature.
- Set required fields that the patient must populate.
- Import the patient data into DentiMax, populating the patient record, and save a readable and printable copy in the patient's DentiMax Document Center, eliminating data entry errors, and handwriting challenges.

## In-Office Kiosk

The In-Office Kiosk gets installed on a tablet or device of your choosing in your practice. It allows for both new patients to complete their patient registration forms, and existing patients the ability to update their records electronically.

## Web Kiosk

The Web Kiosk is hosted on a secure DentiMax website to intake New Patient registration and initial consent forms. Your office can add a "register now" link or button to their website for easy access. Your patient can complete their registration from their smartphone, home computer, or any device with internet, from anywhere.

# E-Prescribing

Manage controlled substances securely, from anywhere

With electronic prescription writing directly integrated into DentiMax, you don't have to double enter your patient's data into another program to issue controlled or non-controlled substances.

Not only will e-prescribing help expedite the process of issuing scripts from anywhere, but it will also help you manage controlled substances securely. In addition, it adds transparency among other dental and medical specialties on how each patient is treated. Providers can issue prescriptions from their mobile device when an after hours emergency pops up.

Electronic prescribing for controlled substances and legend drugs

Predictive analytics to help you make medication decisions with fewer clicks

24 months of patient medication history in just a few seconds

Medication adherence monitoring and behavioral support tools

Accessible from the web and mobile app

Drug-drug, drug-allergy, dosing, and duplicate therapy alerts, patient-specific formulary guidance, and provider-specific drug favorites functionality

Check prescription drug benefits, view alternative drug therapies or pharmacy options, and see expected patient out-of-pocket costs in real time

# Global Payments Integrated

**WE  
CAN'T  
SOOTHE A  
TOOTHACHE.**

## **BUT WE CAN TAKE THE PAIN OUT OF PAYMENTS WITH CONTACTLESS SOLUTIONS**

Your focus has always been on providing the best care for your patients – now that includes keeping them safe when they visit your practice. Global Payments Integrated and DentiMax have partnered to provide secure integrated payment solutions that offer the contactless payment methods patients expect. GPI's feature-rich payment technology is already embedded in your practice management software – just turn it on.

### **Why Choose Global Payments Integrated and DentiMax?**

- Direct integration within DentiMax PMS Software V20 allows for single transaction entry and processing to help reduce data entry errors.
- DentiMax processing partner for Text to Pay.
- Accept all major payment types, including contactless credit cards, digital wallets, HSA, FSA and more.
- Help keep cardholder data safe and prevent fraud with encryption and tokenization.
- Easily accept online payments to get paid faster and offer convenient ways to pay.\*
- Global Payments Integrated has been recognized by J.D. Power for providing "An Outstanding Customer Service Experience" for phone support.

\*Available with DentiMax V20 and higher.

# Medivision<sup>®</sup>

Sales tools for your dental team

## An informed patient is more likely to accept your proposals!

Increase case acceptance by educating patients on complex treatment options through the use of animated videos, and simplify complex procedures with easy-to-understand videos.

Animation and leaflets are shown at the chairside and both can be emailed to the patient with a couple of clicks. Over 200 animated topics together with still photographs and patient information leaflets to take away!

Videos get installed on a computer of your choice to play for the patient (pricing is per install, monthly or one time).

### Treatment options explained

Explaining the options open to the patient is a fundamental part of informed consent. Medivision will increase your case acceptance and the profitability of your practice.

### Language barriers

Using friendly animations, Medivision will quickly overcome language barriers and also help eliminate the jargon of dentistry. Animation and leaflets are available in English, Spanish, French, German and Italian.

### Education

Medivision can be used to educate patients about oral healthcare, how and why preventative dentistry is important to them. Motivating patients to take care of themselves and increasing your sundry sales.
